Shop of Ages

In the heart of Old City, **Art in the Age of Mechanical Reproduction** is at once a clothing boutique, apothecary, liquor store, gallery space, distillery, design house and artist hangout. Unique in the best possible way, Art in the Age supports the American tradition of careful craftsmanship and favors small-batch items ranging from hand-stitched Mennonite quilts to liqueur-infused soaps. Art in the Age also houses the city's only Warby Parker showroom. Shoppers can try on vintage-inspired glasses and sunglasses right on the spot before placing their order for home delivery.—A.G.
